ENF comments on MOA.docx  
MOA Compare Jan comments vs april rev comments 5-15-13.docx

Kevin,

I finally got the comments together on the MOA. I do know we had some comments on the program description and I don't think we got those edits back yet. Attached are two files. One is just a bullet list and the other is a compilation of the MOA. I had to do some word gymnastics to find out what was different between the MOA you send us in April and the one we went over in January. So I did a document compare, which had some remnant comments from our January comments and your April one. I hope that made sense.

Anyway Lisa and I have gone over the combined comments. I know some are new because our enforcement folks wanted to take a look at this (they are starting to work more closely with us now and this became part of the increased cooperation plan). If you are available we'd like to go over this tomorrow. Lisa is open in the morning (say 8:30 your time?) and so am I. I have an off-site meeting tomorrow so I'll be out of pocket from about 9:30 to 12:30 my time.

Thanks,
